

## Farewell My Friend

A soft breeze has spread your dust  
Heavens light embraced your soul  
Given the key to the other world  
Your inner flame was out of control

I heard your cry in a certain prayer  
Longing for freedom in eternity  
The call of God has made the way  
To heaven's gate in serenity

*Chorus:*

*Farewell my friend  
Now here's the end  
From this moment on  
Your endless journey has begun*

*Farewell my friend  
Spread your wings and fly  
To the stars in the sky  
But still I'm wondering why*

Sometimes life is so unfair  
You whispered to me in despair  
All of your dreams faded away  
Because you knew you couldn't stay

So many words left unspoken  
It makes me feel heartbroken  
Why did you have to go  
To a place where I, where I, can't follow

*Chorus:*

*Farewell my friend  
Now here's the end  
From this moment on  
Your endless journey has begun*

*Farewell my friend  
Spread your wings and fly  
To the stars in the sky  
But s till I'm wondering why*

*Bridge:*

The beauty of your heart  
Your smile and your love  
Shining from above  
And the sound of your voice  
Still be heard like a melody  
Forever it will be.....  
Engraved into our memory

*Chorus:*

*Farewell my friend*

*Now here's the end  
From this moment on  
Your endless journey has begun*

*Farewell my friend  
Spread your wings and fly  
To the stars in the sky  
But still I'm wondering why*

*Farewell my friend*

*Now here's the end  
From this moment on  
Your endless journey has begun*

*Farewell my friend  
Spread your wings and fly  
To the stars in the sky  
Leaving me with a tear in my eye*

Music & Lyrics

Lead Vocals:

Backing Vocals:

Piano & Drums:

Acoustic & Electric Guitar:

Orchestra & music arrangements:

Vocal arrangements:

Produced by:

Recorded at:
