

First Love

There's always one person
That will always have your heart
You never see it coming 'cause
Your blinded from the start
Know that you're the one for me
Oh, it's clear for everyone to see

No matter what happens
You will always be the one
No matter who else comes along
You'll always be on my mind and in my mind
And when you think it's gone, it's all back again

Chorus: 2X

Every love song reminds me of you
Every time I close my eyes

There's always one person
That will always have your heart
You never see it coming 'cause
Your blinded from the start
Know that you're the one for me
Oh, it's clear for everyone to see

No matter what happens
You will always be the one
No matter who else comes along
You'll always be on my mind and in my mind
And when you think it's gone, it's all back again

Chorus: 2X

Every love song reminds me of you
Every time I close my eyes

There's always one person,
That will always.....have...your heart.....
