

THE BEGGAR

Walk along the boulevard
See the bright electric stars
Neon flashing way beyond
The poor demanding heart

Walk along the boulevard
See the bright electric stars
All the heat that's liberated
Can't warm the beggars heart

When he comes to get a dime
Just pretend you got no time
Step aside and look away
Don't get mugged today

Walk by, just walk along,
Your fancy shoes will get you home
Step aside and make your way
Don't be his prey, praise your day

choir: It's not the dice that roll that make the changes,
choir: It's you that make 'em roll to changing places

Fear the damage that might be done
When he grabs your wallet and runs
Buy himself some bottles of good wine
With your money, having a good time

Walk along the boulevard
See the bright electric stars
Neon flashing way beyond
The poor demanding heart
Poor demanding heart... (4x)

choir: It's not the dice that roll that make the changes,
choir: It's you that make 'em roll to changing places
choir: It's not the dice that roll that make the changes,
lead: Poor demanding heart, poor demanding heart
choir: It's you that make 'em roll to changing places

"Thou shall not pass beggars without
spending them a decent meal."

Fear the damage that might be done
When he grabs your wallet and runs
Buy himself some bottles of good wine
With your money, having a good time

Walk along the boulevard
See the bright electric stars
Neon flashing way beyond
The poor demanding heart
